Ballard's SNOW LINIMENT

Is the Right Remedy for All Abrasions of the Flesh.

If the wound is cleansed and the liniment applied promptly, the healing process begins at once and the wound heals from the inside outward, thus performing a perfect cure that leaves no scar. If the wound heals on the outside too quickly, pus forms under the surface and breaks out into a running sore that is hard to cure and inevitably leaves a bad scar.

Owners of bonded stock prefer this liniment to all others for that reason, and they use it not only on fine animals but on human flesh, as it does its work quickly and thoroughly.

Price 25c, 50c and \$1.00.
